Subject: fyi

I was in a meeting on Monday afternoon with Mathy Stanislaus. He mentioned his trip to Region 7, and mentioned he had heard comments from community members (he didn't say who) regarding the Westlake supplemental feasibility study, and the need for a summary of the study. Has the region decided how it wants to proceed in terms of providing a summary of the study? I know the responsible party prepared a summary. Has the region decided if it is going to prepare an independent summary or if it is going to make the responsible party's summary available to the public?
